### ***Authentic and Effective Communication – Barriers and Breakthroughs***

Everyone wants to be heard and understood, yet communication can be an area of great stress. One of the factors that can lead to stress, is not having the skills needed for the task at hand.

***“Unlearning the bad habits we have acquired over a lifetime is just part of the process”***, says Rhanda. In this interactive presentation, Rhanda will share a few of the ‘best practices’ she has been teaching her individual and business clients for decades.

This workshop will provide you with a simple technique to assess the effectiveness of your communication at work and at home. You will leave with greater self-awareness and with two tools that you can put to use right away to improve your communication in any setting
